

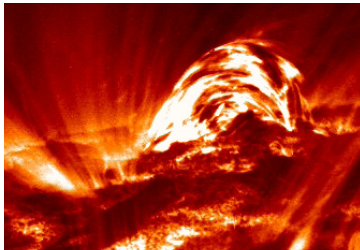

# Photovoltaic Manufacturer Shipments & Competitive Analysis 2007/2008

April 2008 – Comprehensive Report Released by PV Service Program

## Report Author

Paula Mints and Dan Tomlinson of Navigant Consulting's Photovoltaic Service Program are the authors of this report. Paula Mints is the Principal Analyst with the Photovoltaic Services Program and an Associate Director with Navigant Consulting. Ms. Mints is widely recognized as an industry expert on photovoltaic technologies and markets.

## Report Pricing

The complete report is available for \$5,500. Report segments are available individually at the following rates:

Segment 1: Photovoltaic Manufacturer Shipments: \$3,500

Segment 2: Competitive Analysis: \$4,000

Subscribers to Navigant Consulting's Photovoltaic Service Program receive the complete report as part of their annual subscription fee: \$13,600

Navigant Consulting, Inc.'s Photovoltaic Service Program has completed its annual comprehensive report focusing on the global solar industry. Segment 1 of the report, "Photovoltaic Manufacturer Shipments, 2007/2008," provides extensive analysis of the supply side of the industry including:

- » Average selling price for technology with a complete trend line from 1975 to 2007 and forecast out to 2016
- » Annual shipments of PV technology broken out by region, manufacturer, and technology
- » Discussion of the top ten manufacturers in 2007, including shipment and revenue data
- » Analysis of industry capacity utilization and a breakdown of capacity by manufacturer and region

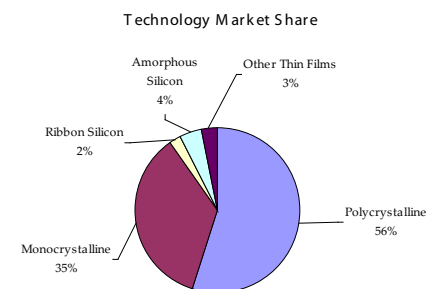

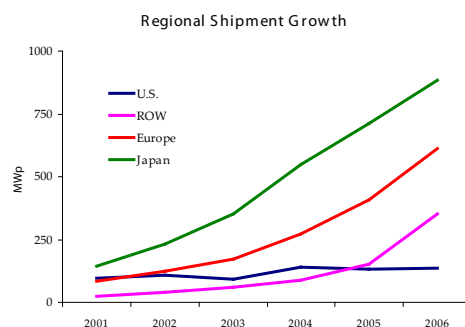

Segment 2 of the report, "Competitive Analysis," provides more detail on the leading manufacturers including:

- » Company history and development
- » Discussion of product mix and technology
- » Analysis of industry trends and emerging players

The report provides an objective and comprehensive analysis of the PV industry, including a forward-looking understanding of market and technology trends. The analysis is supported by more than 25 years of primary research and is an essential tool for business planning.

The report can be purchased in its complete form or by individual segment. For additional content information, please see the Table of Contents and List of Figures on the reverse side of this fact sheet.

## Manufacturer Shipments Preliminary Table of Contents

1. Introduction
  - 1.1. Purpose and Scope
  - 1.2. Methodology
2. Executive Summary
  - 2.1. 2007 Industry Overview
  - 2.2. Cell/Module Manufacturer Shipments
    - 2.2.1. Regional Shipments
    - 2.2.2. Shipments by Manufacturer
    - 2.2.3. Shipments by Technology
  - 2.3. Revenues
  - 2.4. Average Module Price (Asp)
  - 2.5. Manufacturing Capacity
3. Shipments and Revenues, 2006-2007
  - 3.1. Shipments by Region and Manufacturer
  - 3.2. Shipments by Technology
  - 3.3. Worldwide Revenues 2006-2007
  - 3.4. Market Outlook, 2007-2011
4. Selling Price
  - 4.1. Trends In Average Module Pricing
  - 4.2. Power and Large Quantity Module Pricing
  - 4.3. Future Pricing Trends
5. Manufacturing Capacity and Utilization, 2006-2007
  - 5.1. Total Cell Capacity and Utilization – All Manufacturers
  - 5.2. Manufacturing Capacity by Technology
  - 5.3. Major Manufacturer Capacity
6. Top Five Manufacturers 2007
  - 6.1. Near-Term PV Industry Leaders
  - 6.2. Technology Support by Manufacturer
  - 6.3. Top Five Manufacturers for 2007

## Representative List of Figures in the Manufacturer Shipments

- Figure 2.1 2006/2007 Regional Shipments Distribution
- Figure 2.2 Regional PV Shipment Growth in MWp Annual Growth by Region and World 1998-2007
- Figure 2.3 Cell and Module Manufacturers Shipping 3% of Total 2006, 2007
- Figure 2.4 Technology Market Shares 2006, 2007
- Figure 2.5 Regional Technology Contribution 1980-2007
- Figure 2.6 PV Cell and Module Manufacturer Revenues by Region 2006, 2007
- Figure 2.7 Module Pricing Trends, 1980-2007
- Figure 2.8 Price History and Forecast Power Modules and Large Quantity Modules 1976-2016
- Figure 2.9 PV Industry Capacity Increases by Region 1992-2007
- Figure 2.10 Regional Capacity Shares 1998, 2007
- Figure 3.1 Market Shares Top Five Manufacturers for 2006 and 2007
- Figure 3.2 Average Annual Shipment Growth, by Region, with Compound Annual Growth Rates 2001-2007
- Figure 3.3 Regional PV Shipment Growth in MWp Annual Growth by Region and World 1998-2007
- Figure 3.4 Worldwide Demand/Supply Comparison 2007
- Figure 3.6 Cell and Module Manufacturers Shipping 3% of Total 2006, 2007
- Figure 3.8 Technology Market Shares 2006, 2007
- Figure 3.10 Technology Percent Contribution 1980-2007
- Figure 3.11 PV Cell and Module Manufacturer Revenues by Region 2006, 2007
- Figure 3.12 Cell and Module Revenue Growth by Region 1998-2007
- Figure 3.14 Cell and Module Revenue and Total Shipment Growth 2001-2007
- Figure 4.1 Module Pricing Trends, 1980-2007

- Figure 4.2 Trends in Total Module Prices and Megawatts Shipped 1990-2007
- Figure 4.3 Power and Large Quantity Module Pricing and Shipments 1990-2007
- Figure 4.4 Price History and Forecast Power Modules and Large Quantity Modules 1976-2016
- Figure 5.1 PV Industry Capacity Increases by Region 1992-2007
- Figure 5.2 Shipments, Capacity, and Capacity Utilization All Manufacturers 1992-2007
- Figure 5.3 Regional Capacity Shares 1999, 2007
- Figure 5.4 Regional Manufacturing Capacity vs. Shipments 2006, 2007
- Figure 5.5 Total Manufacturing Capacity vs. Shipments 1999-2007
- Figure 5.6 Crystalline Manufacturing Capacity vs. Shipments All Manufacturers 2006, 2007
- Figure 5.7 Amorphous Silicon Manufacturing Capacity vs. Shipments All Manufacturers 2006, 2007
- Figure 5.8 Other Thin-Film Technology Manufacturing Capacity vs. Shipments All Manufacturers 2006, 2007

## Preliminary List of Manufacturers in Competitive Analysis

BP Solar  
ErSol  
First Solar  
Isofoton  
JA Solar  
Kyocera  
Mitsubishi Electric  
Motech  
Photowatt  
Q-cells  
Sun Power  
Suntech  
Solar World

## Manufacturer Profiles include:

Shipments  
Revenue  
Business History  
Product Mix
